

# Dash Styled Unordered list

```
<html>
  <head>
    <style type="text/css">
      ul {list-style-type: none;}
      li:before
      {
        content: " - "; position: relative; margin-left: -40px;
      }
    </style>
  </head>

  <body>
    <ul>
      <li>the most up-to-date information on running races</li>
      <li>the best resources for runners</li>
    </ul>
  </body>
</html>
```

## Result:

- the most up-to-date information on running races
- the best resources for runners
